

# Vodafone Mobile and Fixed Broadband for the public sector

Make the most of now

vodafone

# True flexible working, wherever, whenever, with value built in

Mobile and Fixed Broadband from Vodafone is exactly in tune with the Transformational Government Agenda. It means embracing new technology which enables your people to work more freely, more flexibly and more efficiently. Mobile and Fixed Broadband gets you online wherever your work takes you, on the move, out of the office or at home. It's simple to use, highly secure and with predictable pricing there are no surprises on your bill each month.

True mobile and flexible working that will support your productivity targets, help cut costs and enhance the work/life balance of your people.

## Vodafone working in partnership with the public sector

It didn't just take the Gershon Efficiency Review to focus minds in the public sector on finding new and better ways of working. Efficiency, flexibility in service delivery and cost management are top of the agenda across the whole sector.

As an established UK-based supplier we have more than 20 years' experience in delivering business-critical services to over 770,000 customers in the public services arena. We understand the challenges facing local, regional and national government organisations.

That's why we've pioneered solutions packaged to meet the special demands of organisations just like yours. Solutions that eliminate many of the headaches of fixed infrastructures and provide workers with access to information and to people quickly, easily and securely from anywhere, at any time. All delivered by our dedicated public sector team of professionals, with a focus on value.

**Mobile Broadband from Vodafone** creates a virtual office environment that extends to field workers on the move. True mobile working, wherever you choose to work. Access to email and applications providing improved collaboration and service delivery. High speed, network covering over 80% of the UK population and 'always on' connection, with predictable fixed monthly fees.

Vodafone has simple, cost-effective propositions designed for different users' needs within the public sector:

- **Mobile Broadband 24** is a daily tariff with no contract term, especially designed for short-term workers and occasional users
- **Mobile Broadband** is our predictable, flat rate plan for regular users, with a 5GB UK fair usage inclusive data bundle
- **Mobile Broadband Euro Traveller** and **Mobile Broadband Travel** is ideal for regular European or Worldwide travellers.

**Vodafone Fixed Broadband**, which fully complements our portfolio of Mobile Broadband and other connectivity options, provides a high-speed "always on" connection for one fixed flat rate monthly charge regardless of how much it is used and with no need for an additional line.

- **Homeworker Broadband from Vodafone** is the service packaged especially for public sector home working, linking your staff to the internet and your organisation's LAN from virtually anywhere in the UK.

## Security

Public sector information is most often highly sensitive so you will want reassurance on data security and controlled access – right across the network. That's why we offer a tailored delivery of secure mobility solutions. It means you can be confident that your people can work outside the traditional office environment knowing both assets and data are secure.

## The benefits

- Peace of mind that assets and data are secure
- Seamless connectivity helps improve collaboration, information management and productivity – true flexible working
- Always know what to expect on your bill each month
- Inexpensive to install and simple to use, our public sector Mobile and Fixed Broadband services integrate with existing IT infrastructures, considerably reducing deployment, ongoing management and support costs.

Allowing an employee to work 1.5 days/week from home can save around 1200 miles per year and 365kg of CO<sup>2</sup> in commuting.

(RAC study)

## Homeworker Broadband from Vodafone is packaged especially for public sector home working.
